Nobody does Bermuda like Battlefield Travel

"Set adrift in its own dreamy archipelago in the balmy Gulf Stream, this rich little oasis of pink-sand beaches and sparkling blue waters, Bermuda and the Grotto Bay Beach Resort has become a second home to Battlefield Travel!"

Only a short 2½ hour plane ride from Toronto, Bermuda is a great place to either do a lot or just relax and enjoy the 'dolce far niente'. There are a multitude of attractions to inform and entertain you while in Bermuda - from numerous small museums and art galleries to spectacular caves and large historic fortifications. For history buffs, there are many historic buildings and houses and numerous impressive well preserved forts. Visit the old town of St George's, now formally designated by UNESCO as a "World Heritage Site" for its historic significance and authenticity. So, whether you want a leisurely stroll along the beach or to work on your golf handicap on one of Bermuda's world famous courses - Bermuda pretty much has it all.

Our unique, deluxe hotel, the Grotto Bay Beach Resort, is nestled amid 21 acres of beautifully landscaped ocean front grounds, offering a private beach with two secluded coves. Heated freshwater pool, outdoor hot tub, deep-water dock, and two underground grottos are some of the many features offered. All of our ocean view rooms are beautifully appointed. Full Breakfast and Gourmet Dinner (run of the menu) are included every day - not to mention a bus pass for

your one or two week stay, so getting around Bermuda will be a breeze!
